In Science, we are going to be exploring plants. We will plant our own seeds and watch them grow. We will find out what a plant needs to grow. We will also be using the correct vocabulary to name parts of a plant.

Can you find out the difference between a deciduous and evergreen tree.

In Geography, we will continue our work on maps, to help us learn more about our school grounds.

We will begin to use simple compass directions.

Can you find out which way north is when you are in your house?

We will be creating a map of our school and creating a key.

**Challenge:**

What does a plant need to grow successfully?

**Challenge:**

During this topic we are going to take a closer look at things we find in the garden.
Go to the library and see if you can find some books about minibeasts!

You could create a tally chart, to show how many of each minibeast you find!

You could maybe go on a walk in your local area. Look under logs and see what you find. Have a look out for lots of different flowers. Can you spot the leaves, stem and flower? Where are the roots hiding?

In DT, we are going to be learning all about nutrition. We are going to grow our own vegetables in our raised beds. When they have grown, we will be able to bring some home to eat!

We will be learning about where lots of different foods come from.
